

VIRTUAL STOCK MARKET

Think you got em' Investing skills? Well, here is your chance. Participate and execute it to success

It is a paper trading game where the investors can play without the actual money. It is done by manipulation of imaginary money and investment positions that behave in a manner similar to the real markets.

It is very important to understand the market movements and to take decisions according to it. Every element of the analysis is very important and critical for the best performance. Hence, a comprehensive Investing strategy encompassing the key areas has to be formulated.

Rules and Regulations: -

- It is an individual event
- There is no limit on the number of entries per institute
- The event would be of three to four hours

Description

Each participant will be given virtual amount and a list of companies to invest in. After which they will be shown videos of the various incidences/happenings of the economy that lead to the rise/fall of the Sensex/nifty. On the basis of which they will buy/sell shares accordingly. The participant with the maximum profit will win prizes.
