

MECHATHING

RULES

- The Entry must be the Team's original work and must not infringe upon the copyright, trademark, patent, privacy, publicity or other intellectual property rights of any person or entity.
- The team should submit a detailed report prior to the competition, which includes a design specification, manufacturing instructions and user manual.
- Submit a business case for the mass production and sale of the product.
- Team members have to present a Working prototype.
- Teams can use plug and play devices.
- Mobile Application which will act as a controller of the IOT Solution is to be developed.
- All Entrants agree to follow and abide by the design idea requirements and judging criteria.

JUDGING CRITERIA

- Prototypes would be checked for real life application areas.
- Design integrity, Quality of prototype, Functionality, Presentation, and the Depth of each team's knowledge.
- Minimum cost incurred on a working prototype would be an added advantage.

NOTE-

- Any team that is not ready at the specified time will be disqualified from the competition automatically.
- The organizers reserve the rights to change any or all of the above rules as they deem fit. Change in rules, if any will be highlighted on the website and notified to the registered teams.
- Organizers reserve the right to disqualify any team indulging in misbehavior or violating any rules.
- Time and points measured by any contestant by any means will not be accepted for scoring.
- In case of any disputes/discrepancies, the organizers' decision will be final and binding.
